Stronger and smarter security solutions for critical infrastructure.

These days, threats of theft, vandalism, and terrorism are increasing in frequency and sophistication. Any break or interruption in regular service by a company that manages critical infrastructure can cause loss of revenue, a ruined reputation, risks to public safety, and even national security threats. Therefore, high-security access control systems are essential.

Trusted by governments, the defense industry, and other industries in need of high security.

ABLOY is trusted to deliver high security solutions for critical infrastructure worldwide. ABLOY products are chosen for sensitive applications in the harshest conditions both on land and sea. They're proven to be among the toughest locking systems around, and they're also known for industry-leading innovation.

ABLOY Digital portfolio Your bridge to the future

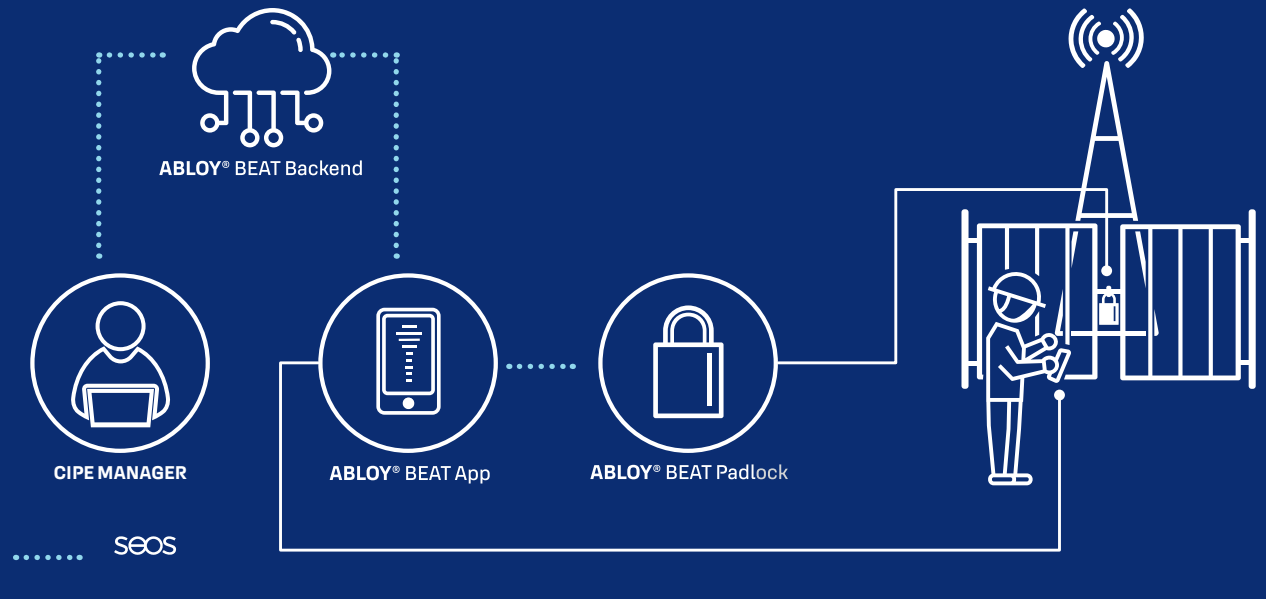

Innovation is in the DNA of our company. ABLOY was founded on the invention of the disc cylinder locking system, and today we are leading the industry with our Digital portfolio of products. This includes the ABLOY BEAT keyless system, the electromechanical PROTEC2 CLIQ system, and the mechanical ABLOY Master Key Systems padlocks. It's all digitally managed by the CIPE Manager operating system, and supported by ABLOY services and global presence.

Workflow and hardware solutions to help you migrate to a frictionless access control system for a safer and more secure environment.

Supported by ABLOY Services and global presence

Abloy is creating a frictionless access control future with the elimination of keys

Mechanical systems that resist forced entry and the forces of nature.

Thieves, vandals, and terrorists are all trying to find ways into critical infrastructure. The rotating disc cylinder used in ABLOY locks, as well as the durable construction of our products, provide outstanding protection.

Here's the security features every ABLOY cylinder has in common:

- Rotating detainer disc cylinder locks are more secure than pinbased locks
- Made to meet and surpass the highest standards around the world
- Extremely pick-resistant and bump proof
- Tested for durability to levels more severe than required in relevant standards
- Combinations vary between key systems
- Locking systems can be set up several different ways for security and convenience

CABINET LOCKS

DOOR CYLINDERS

KEY DEPOSITS

Made to endure the most demanding conditions

Critical infrastructure is often in remote locations and exposed to harsh elements. You need quality products that function as expected in weather extremes and adverse conditions. The components in ABLOY Super Weather Proof (SWP) padlocks are extremely well-protected, and our rigorous testing show they meet or exceed quality standards. We also offer additional options like caps and dust covers for the key insert.

SWP locks are:

- Tested and patented
- ATEX classified
- Suitable lock cylinders available for every application
- Robust and IP68 classified padlocks with CLIQ functionality for the harshest conditions

Electromechanical systems for secure and trackable access control.

Companies in a variety of industries are integrating systems to control keys, manage access rights, and perform audit trails. PROTEC² CLIQ™ is an effective solution. The exceptionally secure mechanics of ABLOY Master Key System locks and keys combine with CLIQ electronics and software solutions. The browser-based CLIQ Web Manager can change access rights whenever required. After updating the rights, keyholders have access everywhere they need, using a single key.

PROTEC² CLIQ™

One key access to everywhere from anywhere

Remote control of keys and access management

Audit trail for instant awareness of movements

Scalable for future needs

Integrable with other systems

Wire-free Wall PD installation

Browser-based CLIQ™ Web Manager allows to change access rights whenever and wherever required.

An overview of the benefits of CLIQ:

- Control authorized timed access for staff and contractors remotely
- Gain operational efficiency in key collection
- Produce full audit trail reports easily
- Delete lost keys
- Integration with permit to work
- 100% control of all keys 100% of the time
- Controlled through the CIPE Manager interface

eCLIQ - Rethink the Key

There's also the new eCLIQ electronic cylinder platform option, which embeds a unique code directly into keys, and enables the remote control of flexible access rights with an app. The wide range of eCLIQ locks fit everywhere, making the system ideal for large facilities like universities or medical centers.

Compact, programmable, reversible, waterproof key with LED function display and acoustic. Key uses RFID chips and fits every eCLIQ cylinder

Flexible access changes and scheduling

Programmable electronic keys and cylinders with blacklisting and key loss management

The programmer transfers access rights and receives audit trails from keys

Update keys anywhere anytime via Smart Phone App

Cylinders are easy and quick to install, no cabling is needed.

The electronic contact between keys and cylinders transmits power and data securely.

Fast, easy standard battery replacement in the key – no need for tools.

eCLIQ Intelligent Key System

eCLIQ fits everywhere

The compact eCLIQ locking cylinder has the highest level of security. With an extensive range of different cylinder types, the system is designed for every kind of use, from the company entrance gate, to securing the alarm systems, lift doors and cabinets.

Keyless systems for effortless flexibility and connectivity.

In some situations, the key security solution may not have any key at all. ABLOY BEAT is a specially designed Super Weather Proof Bluetooth padlock, operated by a mobile app and digital key. Security managers often choose keyless systems when their critical infrastructure is spread out in remote locations or they want to save workers the extra time of obtaining keys.

The convenience of mobile app access

The ABLOY BEAT mobile app allows activation of users' own access rights and flexible access to specified locations, syncing all rights and movements with CIPE Manager. Especially useful in remote areas, busy schedules and emergency cases from wherever you are.

The benefits of ABLOY BEAT

Secured with best-in-class SEOS® credential technology

Easy to use mobile application

Convenience of a keyless solution

High-end digital security for all environments

Super Weather Proof (SWP) IP68 approved

Full audit trail

Online/Offline access

Bluetooth padlock

Managed with CIPE Manager or integrated with 3rd party systems

Latest addition to our future-proof digital portfolio

CIPE Manager is the software solution that connects it all.

If the rotating disc cylinder is the heart of our locks, then CIPE Manager is the cornerstone of our digital portfolio. Companies and organizations are utilizing CIPE Manager to bring flexibility, accountability, and higher security to their access control systems. Though the security benefits are top of mind, they are finding that the greater access control boosts efficiency and productivity day-by-day.

Skilled professionals are the most important security feature.

High-tech locking systems that integrate mechanical, electronic, and software solutions require qualified personnel for ongoing support. ABLOY USA's new Competence Center helps our customers attain digital transformation. The resource is a valuable support to customers and our nationwide channel distributor partners network. Based in Irving Texas, staff is available 24/7 to offer technical expertise and fill orders.

The Abloy Competence Center in Irving Texas is staffed by experienced technical professionals.

Prior to the deployment of your new system, we highly recommend ABLOY technical training for your business security team. We offer a variety of customized hands-on training courses to teach your team how to properly operate, customize and support your new Intelligent Key System. Our experts will work side-by-side with your team to give them a running start, enabling your new system to operate at peak performance on Day One. If there's ever an issue, we'll provide fast, professional, and cost-effective assistance by phone, email, or online.

The ABLOY Professional Services team will work closely with your company's in-house team to assist with your new system's planning and design, deployment & integration, and on-going support and training.

Together, we will ensure that your new ABLOY Intelligent Key System is up and running on Day One and operating at peak efficiency. They can also help ensure your system's optimum performance by providing on-site support services for long-term engagements on a day-to-day basis. By providing ongoing expert consultancy, ABLOY consultants can expedite troubleshooting and help you define risk mitigation strategies during upgrades of ABLOY solutions, allowing you to reduce training costs for your staff.

Ask your ABLOY sales representative to customize an ABLOY Professional Services program for your company's specific needs. Let's make the most of your investment!

Enterprise System Support

Onsite Deployment Service

SP-365-5

Equipment Configuration

The assistance you need to get all of your equipment programmed and installed. Software Installation/Upgrades.
No need to worry about software installation, we will be there to perform this task for you.

Onsite Training Service

SP-365-6

Hands-on Training Detailed Product Installation Classes

In depth face to face training for our hardware and software applications.
On site classes to train your employees on site-specific hardware installation.

Remote Training

SP-365-7

Web Based Training – Webex / Skype

Online training setup to meet your planning schedule.
1 Hour Minimum Web Based Training.

Additional Training Based on New Staff/Turnover

Online training to help you keep up with new staff requirements.

Training Certification Classes

SP-365-8

Personalized on-site factory technical certification class.

ABLOY will conduct field training, demonstrate sample equipment, and certify students on service, maintenance, and support. These are the same certification classes given at factory and trade shows.

Master Key Consultation / Key Management Consultation

SP-365-9

In-person key system design consultation with a system design expert.

We will assist you in the development of a master key system to meet your design specifications. The system will be uniquely tailored to your facility, resulting in custom Key System Schematics, biting lists and pinning charts.

Assistance in the design, implementation, customization, and best practices for sound key control.

Assistance in the design, implementation, customization, and best practices for sound key control products and key management policies and procedures that will minimize liabilities and extend key system lifespan. A key system investment will be maximized by deploying these sound key management practices.

Remote Deployment Services

SP-365-10

Remote Software Installation

Live online assistance with software installation to ensure complete functionality

Facility Training ABLOY Office

SP-365-11

Personalized factory technical certification class held at the ABLOY Office.

ABLOY will conduct field training, demonstrate sample equipment, and certify students on service, maintenance, and support. These are the same certification classes given at factory and trade shows.

ME155 **ME156**
c/LC801 c/LC802
Bolt operated by key outside and thumbturn inside. Inside thumbturn can be locked with proper key to provide double cylinder security.

Security is the key to success

Everyone needs to be secure. Governments, companies, organizations and private individuals.

Criminal acts, violence and breakdowns in information transfer, production and distribution occur increasingly often in everyday life – good reason to ensure that there are no gaps in your security. Everyone can then concentrate on what is most important to them. Without having to worry.

Proven Durability

ABLOY® padlocks have been designed and manufactured to not only meet the requirements of the EN12320 padlock standard, but also exceed the requirements, as our own tests are significantly higher.

ABLOY® padlocks continued to operate smoothly throughout exhaustive durability tests such as the acetic acid salt-spray test – they are therefore the best possible alternative for use in unprotected locations where the environmental conditions are severe.

Abloy Oy has paid particular attention in design of environmentally friendly production methods.

As a result we use the most modern and environmentally friendly surface plating facility in Finland.

All the operations are qualified with the ISO9001 and ISO14001 certifications.

The best electromechanical lock system in the world.

Challenging weather and environmental conditions put stress on high security installations in railway networks.

ABLOY® SUPER WEATHER PROOF (SWP) padlocks are a locking solution in which the components are extremely well-protected to ensure operation in all conditions. Security is guaranteed, even with regular exposure to extreme heat or cold, storm-driven salt water, or desert dust.

TWO LEVELS OF PROTECTION

Mechanical SWP padlocks offer two levels of protection. The lower level can be upgraded to the higher one if required.

SWP

Shackle openings protected against the ingress of dust and water by sealed shackle.

SWP WITH CAP

In addition to sealed shackle, a weather seal cap protects the keyway and cylinder.

Think ABLOY® PROTEC² CLIQ® for superior access control.

Securing rail infrastructure means more than protecting from trespassing, vandalism, and thievery.

Trackside barriers, buildings and equipment need to be protected from trespassers, vandals and thieves. Extensive periods of construction and maintenance means staff and contractors need to be granted access to high risk areas at all times. And it's vital to ensure access is only granted to the right people at the right time.

ABLOY® cam locks have been developed to meet the highest levels of security in the field of equipment locking. Our extensive range consists of both standard products and a wide selection of customized products. The superior benefits offered by ABLOY® cam locks make them ideally suited to the most demanding, high security applications where valuables are located

either behind small doors or in enclosures, e.g. vending machines, cash dispensers, gaming machines, parking meters, pay phones, coin-operated laundry machines etc. Our long experience in high security products and our high levels of expertise guarantee you the best possible choice for your particular application.

ABLOY® EXPERTISE AT YOUR SERVICE

High-Security Perfection

The unique ABLOY® cylinder construction, patented cylinders, strict key control and extensive master keying capabilities make ABLOY® cam locks ideally suited for the most demanding applications.

Unique construction

Based on a unique operating principle which employs rotating detainer discs, ABLOY® cam locks offer advantages that other locking systems cannot achieve.

Virtually pickproof

Only the correct key can align the gates on all the discs and permit the locking bar to disengage the cylinder from the housing.

The ABLOY® PROTEC cylinder employs a new, patented disc blocking system (DBS) which makes it impossible to manipulate the cylinder so that it opens without the correct key.

Physical strength

ABLOY® cam locks combine excellence in design with the very latest engineering and production technology. Additional resistance to physical attacks is ensured by the use of case-hardened steel components.

Master keying Capabilities

Based on a unique operating principle which employs rotating detainer discs, ABLOY® cam locks offer advantages that other locking systems cannot achieve.

Resistance to harsh conditions

The ABLOY® cylinder contains no springs or pins which could cause it to malfunction in a wide range of environmental conditions. All the components are highly resistant to wear, dirt, moisture, corrosion or freezing conditions.

User-friendly

The disc control system and symmetrical key make ABLOY® cam locks easy to operate.

Cams – Square cut out

For cam locks in the universal range, three different cam models available: straight, hooked and offset. Cams are made of nickel-plated steel. Cams for the U.S. range of cam locks are available in the U.S. sales office.

Lockers

ABLOY coin operated locks offer a secure, functional and durable locking solution for safekeeping.

Coin operated locks are used in variety of applications such as lockers, storage boxes and cabinets. Locks

have several different coin identifiers and are available with coin trays and coin boxes. Equipped with deadbolt latches and reliable ABLOY patented rotating disc technology cylinders, they meet the industry standards for securing valuables.

<

Stamping

- Digits and characters can be stamped on the key if required. Marking can be made by stamping on the key bow.
- The height of a symbol is 2mm and the maximum number of stamped symbols

are 15 pieces (9 pcs first row and 6 pcs for second row). Two row stamping only on special agreement.

- Note! EPLANNER software allows only 10 digits for stamping.

Accessories and Tools

New key decoder, LT214

Can be used for 9 and 11 discs ABLOY® PROTEC and ABLOY® PROTEC² products.

Optional plastic key bow, KS802

- Can be added to the metal key bow
- Available as black
- Color ID buttons available

Tool for disc controller, LT227

The tool is used for removing the PROTEC² Disc Controller from the internal drum. In short it's a disc controller removal Tool.

ABLOY PROTEC² Starter Kit:

**If you can load a Pez dispenser
you can key the best lock in the world.**

The ABLOY® PROTEC² starter kit is an affordable way for commercial locksmiths to offer the best high security locks in the world for critical infrastructure and harsh weathering applications. It's more than just a starter kit. It's a launch pad for your high security sales growth.

Contact ABLOY USA for Pricing.

Terms &
Conditions

1. General; Definitions

1.1 Entire Agreement

Unless otherwise agreed to in writing by ABLOY, Inc. ("ABLOY"), the terms and conditions contained herein constitute the entire agreement between the parties with respect to the subject matter hereof and supercede all prior communications and agreements. Acceptance by ABLOY of Buyer's Order, or Buyer's acceptance of ABLOY's proposal, is expressly limited to and conditioned upon Buyer's acceptance of these terms and conditions which may not be changed or waived except in writing signed by the parties. Any additional, inconsistent or different terms and conditions contained in Buyer's purchase order or other documentation are hereby expressly rejected.

1.2 Definitions

In these terms and conditions of sale: (i) "Buyer" means the person or entity who accepts a quotation of ABLOY for the sale of the Products or whose Order for the Products is accepted by ABLOY; (ii) "Conditions" means the standard terms and conditions of sale set out in this document and includes any special terms and conditions agreed to in writing between Buyer and ABLOY; (iii) "Order" means an order for Products placed by Buyer with ABLOY and accepted by ABLOY; (iv) "Products" means the products ordered by Buyer and shall include all products, parts and accessories furnished to Buyer by ABLOY.

2. Shipping; Delivery

2.1 Terms of Shipment

Unless otherwise agreed to in writing, all Products are shipped F.O.B. ABLOY's location. ABLOY reserves the right to deliver in installments.

2.2 Shipping Charges

Subject to Section 2.3, ABLOY will pay all shipping charges in advance of shipment only for shipments of \$1,500.00 net Continental U.S. or more with delivery to Buyer at a single location. Buyer will pay all shipping charges in advance of shipment for all shipments that are less than \$1,500.00 net Continental U.S. or that require delivery to Buyer at more than a single location. Such charges will be added to Buyer's invoice. A shipping & handling charge of \$1.05 per shipping carton will apply to shipments.

2.3 Choice of Carrier; Route

Unless otherwise requested on Buyer's Order, ABLOY will ship by carrier and route of its choice to any freight

service point within the continental United States. If Buyer requests a carrier or route on its Order, ABLOY will deliver in accordance with such request and Buyer will pay the entire amount of all shipping charges in advance of shipment.

3. Title and Risk of Loss

Subject to Section 5.3, title to and risk of loss of each Product purchased by Buyer shall pass to Buyer and delivery shall be deemed to be complete upon transfer of the Products to a carrier for shipment at ABLOY's location or the Products otherwise leave the possession or control of ABLOY. This Section 3 shall survive any expiration or termination hereof.

4. Orders

4.1 Acceptance

Orders can be sent to ABLOY via the following 3 methods:

Mail: ABLOY SECURITY, INC. 6005 Commerce Drive #330, Irving, TX 75063 USA

Fax: 972.753.0792

E-mail: Orders.Abloy@assaabloy.com

ABLOY reserves the right to refuse Orders and is not bound to honor any Order unless and until such Order has been accepted by ABLOY. ABLOY may refuse an Order by delivering notice, orally or in writing, of such refusal to Buyer within ten (10) days of ABLOY's receipt of such Order. Orders will ship Partial unless Master Keyed or otherwise noted on Purchase Order).

4.2 End User Security Authorization Procedures.

To insure proper control of End User restricted products, ABLOY requires that the End User complete a Delivery of Controlled ABLOY Components for End Users Form. The form will indicate where and to whom their restricted product will ship upon leaving the ABLOY factory. All orders involving an End User restricted product must be signed by the proper **authorized personnel on file at ABLOY**. This is critical in order to maintain the integrity of the End User's key system. ABLOY will honor the specific, written instructions of the **authorized personnel** for the shipping and handling of each purchase order. Such instructions must be included with each order. A copy of the End User Controlled Product Delivery Form is available by contacting ABLOY customer service or the local ABLOY sales representative. Please note the option of blanket authorization on the form. If the end user chooses this option, it is the end user's responsibility to keep the authorization current and on file. ABLOY does not

maintain any files of blanket authorizations. **A copy of a CURRENT authorization form signed by an authorized signatory must accompany every Distributor purchase order containing End User restricted product sent to ABLOY whether the product is shipping to the End User location or not.** All orders not having this form will be suspended indefinitely or until such form is produced. In the event that any change occurs in the authorization of any End User personnel, ABLOY will require that official written notification be made to ABLOY by the End User on their letterhead before additional orders will be released. A copy of the authorization form **“Controlled Product Delivery Form”** can be found on our website at www.ABLOYlock.com. From the home page select **“Resources”**, select **“Forms and Applications”**, then click on **“Download the Controlled Product Delivery Form Now”**.

4.3 Order Identification

All packages are identified as to contents and assigned an Order number. The Order number also appears on Order acknowledgements, packing slips, freight bills and invoices.

4.4 Packing

Unless otherwise specified, all locks and cylinders are packed individually.

4.5 Changes and Cancellations

No Order that has been accepted by ABLOY may be changed or cancelled by Buyer unless ABLOY agrees to such change or cancellation in writing. Buyer will indemnify ABLOY in full against all loss (including loss of revenue), costs (including the cost of all labor and materials used), damages, charges, and expenses incurred by ABLOY. Changes will result in a delay in the scheduled ship date. Additions to Orders will be entered as a separate Order. Special Orders for non-cataloged items and any Orders that are within sixty (60) days of the original shipment date are not subject to cancellation.

4.6 Return Products Authorization

Return Products will not be accepted unless authorized in advance in writing by ABLOY. Used or damaged items will not be accepted. Products returned to ABLOY for credit must be received by ABLOY within sixty (60) days of initial shipment and must be in saleable condition. The value of goods returned is subject to appraisal as to physical condition. Returns will only be accepted for credit invoicing and a minimum handling charge of 40% will be debited. All returned Products must be shipped F.O.B.

ABLOY's location, freight prepaid. Credit will not be issued for missing parts. Requirement for returns are: the ordering distributor must request a Return Goods Authorization (RGA) in writing through the same process that purchase orders are done. Each Item being returned must have full item description with the original purchase order number that the item was ordered under or the ABLOY order number that the item was shipped under which can be found on the Item box label marked “Order No” or REF#.

Return Goods Authorization is then approved or denied through ABLOY's established internal process. In either case the requesting distributor is notified by ABLOY in writing. If approved, distributor will receive in writing a Return Goods Authorization Number and instructions for marking containers for authorized items being returned.

Once received, Items are physically inspected and checked against the RGA. Information will then be forwarded to the credit department where credit invoicing will be applied. Any Items sent by distributor that are not listed as part of the authorized return will not be credited and ABLOY will not be responsible for return of these items to the shipper. ABLOY will not accept Keyed Cylinder returns.

ABLOY RGA Center

6005 Commerce Drive #330, Irving, TX 75063 USA

5. Price; Taxes; Payment

5.1 Price

Unless otherwise agreed to in writing, the price for the Products shall be ABLOY's prevailing price at the time the Order is accepted by ABLOY or any other price quoted in writing to Buyer. ABLOY's price lists are for general

information only and do not constitute a binding, open offer by ABLOY for the sale of Products. ABLOY reserves the right to modify its standard prices at any time without notice; prices for some Products may change frequently due to market fluctuations.

5.2 Taxes

Buyer shall pay the full amount of any tax or other charge now or hereafter imposed by law upon, with respect to, or measured by the sale, shipment or price of any Product sold hereunder, including without limitation any handling charges; federal, state, or local sales, use, excise, value added, gross receipts or other like taxes; customs duties; and any insurance desired by Buyer. If Buyer is exempt from an applicable tax or duty, then Buyer must provide ABLOY with a valid

exemption certificate before shipment of Products. Foreign shipments placed with ABLOY may require additional charges for documentation and overseas packaging. Such charges will be identified on ABLOY's invoices. This Section 5.2 shall survive any expiration or termination hereof.

5.3 Payment

Unless otherwise agreed to in writing, payment is due thirty (30) days from the date of the invoice. If payments are not made when due, Buyer will pay, in addition to the overdue payment, a late charge equal to the lesser of 1.5% per month or the highest applicable rate allowed by law on such overdue amounts. Overdue accounts will be assigned to the credit department for all transactions.

Once an account has been assigned to the credit department, no Order may be taken, entered or shipped without approval from the credit manager. Buyer hereby grants ABLOY a purchase money security interest in each Product and agrees to cooperate with ABLOY in protecting such interest.

6. Insurance

6.1 Insurance Coverage

Buyer shall procure and maintain, at its expense, the following types of insurance from an insurer acceptable to ABLOY, in the amounts at least equal to those specified below, with deductibles not in excess of \$100.00. ABLOY shall not be required to supply Products to Buyer at any time that the insurance coverage provided for herein is not in full force and effect.

6.2 Certificates

Buyer shall, within fifteen (15) days from the date hereof, furnish ABLOY with a certificate of insurance issued by the insurance company or companies issuing the insurance policies required hereby. Such certificates shall provide that written notices shall be given to ABLOY at its address specified herein at least forty-five (45) days prior to any cancellation or change in any such policy.

7. Warranties and Limitation of Liability

7.1 Warranty

ABLOY represents and warrants the Products against defective material and faulty workmanship for a period of one year after the date of delivery [and warrants the finish to meet quality standards at the time of delivery]. This warranty expressly does not apply to faulty product operation due to: (a) improper installation; (b)

the use of any keys, cylinder pins or other accessories not expressly approved by ABLOY; or (c) failure to provide reasonable maintenance. ABLOY will not warranty cross-keyed cylinders.

7.2 Limitation of Liability

ABLOY's liability under this warranty shall be limited solely to the repair or replacement of the Products, or parts thereof, or refund to the Buyer of the purchase price thereof. ABLOY shall not be responsible for any defect or non-conformity in the Products that: (a) is created after the time of delivery; (b) results from Products for which materials, specifications or designs were provided by Buyer; or (c) results from modifications to the Products by Buyer or others. IN NO EVENT SHALL ABLOY BE LIABLE FOR SPECIAL, INDIRECT, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, WHETHER IN CONTRACT, WARRANTY, NEGLIGENCE, TORT, STRICT LIABILITY, OR OTHERWISE including but not limited to loss of profits or revenue, loss of use of the Products, delays, or claims of customers of the Buyer or other third parties for such other damages. ABLOY's liability on all claims, whether in contract, warranty, negligence, tort, strict liability or otherwise for any loss or damage arising out of, or connected with an Order or the performance or breach thereof, or from the design, manufacture, sale, or delivery shall in no case exceed the purchase price of the Product.

7.3 No Other Warranties

EXCEPT AS EXPRESSLY SET FORTH IN SECTION 7.1, ABLOY MAKES NO OTHER REPRESENTATIONS OR WARRANTIES, EXPRESS OR IMPLIED, AT LAW OR IN EQUITY, WITH RESPECT TO THE PRODUCTS OR THEIR CHARACTERISTICS, QUALITY OR PERFORMANCE, INCLUDING, WITHOUT LIMITATION, THE IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR NON-INFRINGEMENT OF ANY INTELLECTUAL PROPERTY RIGHTS OF THIRD PARTIES AND ANY SUCH REPRESENTATIONS AND WARRANTIES ARE HEREBY EXPRESSLY DISCLAIMED.

8. Claims

Buyer must notify ABLOY of any claim [for adjustment] in writing at ABLOY's address specified herein within thirty (30) days after the date of the invoice in question. Buyer must notify ABLOY of any claim for shortages or incorrectly filled Orders in writing within ten (10) days after receipt of shipment. Under no circumstances will ABLOY be responsible for any charges for labor or material incurred by others without the prior written consent of ABLOY.

9. Indemnity

9.1 Personal Injury and Property Damage Buyer shall indemnify ABLOY and hold ABLOY harmless against all claims, liability, loss or other damages (including ABLOY's legal expenses) to all persons for injury of any nature, including, without limitation, sickness, and/or death, and for property damage caused by any Product or part thereof after the time of delivery of such Product or after such Product otherwise leaves the possession or control of ABLOY.

9.2 Compliance with Law

Buyer agrees: (a) to fully comply with all applicable federal, state and local laws, rules, regulations and guidelines, including without limitation, all applicable regulations and guidelines promulgated, from time to time, by Federal and state environmental and transportation officials, and (b) to indemnify and hold harmless ABLOY from and against all claims, liability, loss or other damages (including ABLOY's legal expenses) resulting in any way from non-compliance therewith.

9.3 Survival

This Section 9 shall survive any expiration or other termination hereof.

10. Trademarks and Other Markings

Buyer shall remove any and all of ABLOY's trademarks, labels, distinctive markings, and designs which may appear on any Product or on the packaging material therefore at the time of delivery of such Product and to refrain from making any use of such trademarks, labels, distinctive markings and designs.

11. Miscellaneous

11.1 Governing Law

The validity and interpretation of these terms and conditions of sale shall be governed by the laws of the State of Connecticut without regard to its principles of conflicts of law.

11.2 Force Majeure

ABLOY shall not be liable for its failure to perform hereunder due to any contingency beyond its reasonable control, including without limitation acts of God, fires, floods, wars, sabotage, accidents, labor disputes or shortages, governmental laws, ordinances,

rules and regulations, whether valid or invalid (including, but not limited to, priorities, requisitions, allocations, and price adjustment restrictions), inability to obtain material, equipment or transportation, and any other similar contingency. In the event of delay due to any such cause, the date of delivery will be postponed by such length of time as may be reasonably necessary to compensate for the delay.

11.3. No Assignment

These terms and conditions of sale are not assignable or transferable by Buyer, in whole or in part, without the prior written consent of ABLOY.

11.4 Modification

No modification or waiver of these terms and conditions of sale shall be effective unless made in a writing signed by ABLOY. No course of action shall be deemed to modify these terms and conditions of sale.

11.5 Severability.

Whenever possible each provision and term of these terms and conditions of sale will be interpreted in a manner to be effective and valid but if any provision or term hereof is held to be prohibited by law or invalid, then such provision or term will be ineffective only to the extent of such prohibition or invalidity, without invalidating or affecting in any manner whatsoever the remainder of such provision or term or the remaining provisions or terms hereof.

Proposition 65

Proposition 65, also known as the Safe Drinking Water and Toxic Enforcement Act of 1986, is a California law that was approved by voters in November 1986. Its primary purpose is to protect California citizens from exposure to toxic chemicals by safeguarding the state's drinking water sources. The statute prohibits businesses from knowingly discharging listed chemicals into drinking water sources.

Proposition 65 also requires that a business selling products that contain certain identified chemicals in excess of defined levels, provide a clear and reasonable warning of the potential hazard. For many listed Proposition 65 chemicals, no warning is required on products determined not to exceed "Safe Harbor" levels of exposure. Proposition 65 is administered by the California Office of Environmental Health Hazard Assessment (OEHHA), which publishes a list of chemicals known to cause cancer or birth defects. This list is periodically updated and currently contains over 800 chemicals. **The list is accessible at www.oehha.ca.gov/chemicals.**

We at ABLOY Security, Inc. and ASSA ABLOY and our directly or indirectly wholly-owned subsidiaries or affiliated group companies are committed to providing safe and compliant products for our customers. Our goal is to continually work with our vendors, supply chain partners, and resellers to source responsibly and to comply with regulatory and reporting requirements, including providing product warnings to our customers as required by laws like Proposition 65.

Approved Warnings – New OEHHA warning regulations that took effect on August 30, 2018, require more detailed product labelling. ASSA ABLOY ensures that its products that require Proposition 65 warnings are labelled in accordance with these new regulations, including identification of specific chemicals and exposure types. Specific product labels reflect the chemical composition of the labeled product. Below is an example of a label which may appear on ASSA ABLOY products in order to comply with this regulation:

WARNING: This product can expose you to chemicals including lead, which is known to the state of California to cause cancer and birth defects or other reproductive harm.

For more information go to www.P65Warnings.ca.gov.

Conflict Minerals

Armed groups engaged in mining operations in the Democratic Republic of the Congo and adjoining countries are believed to be subjecting workers to serious human rights abuses and are using proceeds from the sale of conflict minerals (tantalum, tin, tungsten, and gold, or “3TG”) to finance regional conflicts. In response to these concerns, the US Congress enacted Section 1502 of the Dodd–Frank Wall Street Reform and Consumer Protection Act aimed at preventing the use of conflict minerals that finance or benefit these armed groups. The legislation requires US publicly traded companies using conflict minerals in their products to disclose the source of such minerals.

For more information on Conflict Minerals and Section 1502 of the Dodd–Frank Wall Street Reform and Consumer Protection Act, please access the final rule on the SEC website:

www.sec.gov/rules/final/2012/34-67716.pdf

Updates to ASSA ABLOY Opening Solutions Americas Division conflict minerals status and policy will be posted on our sustainability website:

www.assaabloydss.com/en/solutions-by-topic/sustainability/product-stewardship/

If you have specific questions regarding ASSA ABLOY Opening Solutions, Americas Division products and Conflict Minerals policy or wish to obtain a copy of our CMRT please contact:
