

The Ed Chandler Security Innovation Award

To honor the life of Ed Chandler, CPP, SecuritySpecifiers has created the Ed Chandler Security Innovation Award. This award will be given annually in recognition of an innovation emanating from the security consulting community. It may be a process, service offering, or unique application of technology or product. This is about introducing novel ideas, methods, or devices, and may be incremental improvement or radical breakthrough. Ultimately, innovation drives progress and change by addressing needs, solving problems, and creating new opportunities. The winning applicant will receive **free admission** to CONSULT this year and next.

Notes:

- Submitter must work for a security consulting, design, or engineering firm
- Applications due July 31, 2026

Applicant

Company

Title

Describe the Innovation (attach additional sheet(s) if necessary)
