Start by selecting **Company Information** on navigation bar:

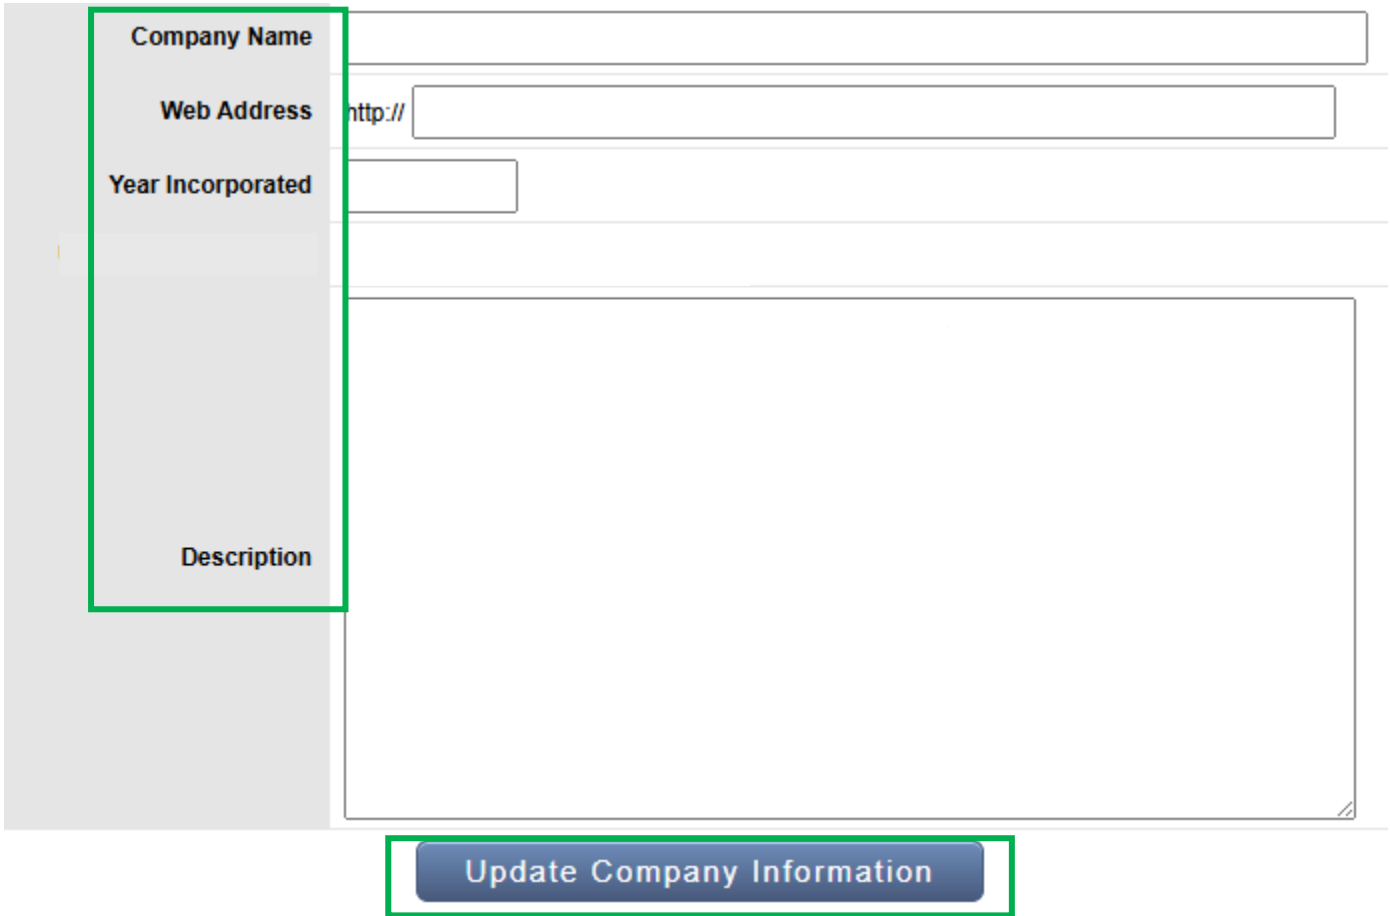

**SecuritySpecifiers Manufacturer Console**

A & E Specs **Company Information** Personnel Locations Web Links Support Resources Feature Pages Data Associations Reports Log Off

**Practice Company Information**

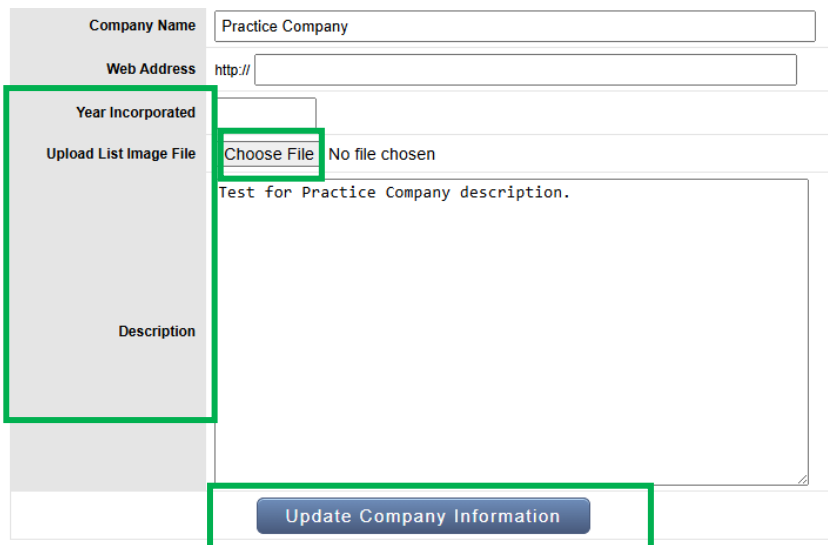

Create your company record by entering **Company Name**, **Web Address** (note http:// is already hardcoded, do not repeat), **Year Incorporated**, and **Description**.

Click **Update Company Information** to save.

A screenshot of a web form for creating a company record. The form has a light gray background. On the left side, there is a vertical column of labels: "Company Name", "Web Address", "Year Incorporated", and "Description". These labels are enclosed in a green rectangular box. To the right of each label is a corresponding input field: a text box for "Company Name", a text box for "Web Address" with "http://" pre-filled, a text box for "Year Incorporated", and a large text area for "Description". Below the form is a blue button with white text that says "Update Company Information", which is also highlighted with a green box.

Once the initial company record is created, you can select the **Choose File** box to **Upload Logo Image** (jpeg or png file less than 100kB), then click **Update Company Information** to save.

A screenshot of the same web form, but now filled with data. The "Company Name" field contains "Practice Company". The "Web Address" field contains "http://". The "Year Incorporated" field is empty. The "Upload List Image File" field has a "Choose File" button highlighted with a green box, and the text "No file chosen" next to it. The "Description" text area contains the text "Test for Practice Company description.". Below the form is a blue button with white text that says "Update Company Information", which is also highlighted with a green box.

Once saved, the logo will be displayed to the right as seen below:

**Web Links** can be added to your company’s LinkedIn, social media or other web links. (Note: List order sets the order of appearance by number. The lowest number appears first, then organized by alphanumeric order. You may use any numerical increments.)

The screenshot shows a form titled "Adding a Link" with a blue header. The form fields are: "Link Type" (dropdown menu), "Link Name" (text input), "Link URI" (text input with "http://" prefix), "Link Active?" (radio buttons for "Yes" and "No"), "List Order" (text input with "1000" entered, highlighted with a green box), and "Description" (text area). At the bottom, there is a blue "Add Link" button, also highlighted with a green box.

The following link types are available:

The screenshot shows the "Adding a Link" form with the "Link Type" dropdown menu open. The menu items are: "Select Link Type", "A & E Specification - Portal", "A & E Specification - Product", "Linked In - Company", "RSS - Company", "Vimeo - Company", "Webinar Calendars", "X (Twitter) - Company", and "YouTube - Company". The "Add Link" button is visible at the bottom.

You will find the icons for links you add on the public site under **Social Media Links**

Example:

The screenshot displays the Gallagher Security website interface. At the top, there are four navigation tabs: **Consultants**, **Manufacturers**, **Integrators**, and **Resources**. Below these is a secondary navigation bar with links for **Homepage**, **Search Consultants**, **Search Integrators** (highlighted in orange), **Cyber**, **Events**, **Partners**, **About Us**, and **Contact Us**. The main header features the **Gallagher Security** logo. On the left side, there is a **Social Media Links** section, which is highlighted with a green border and contains icons for LinkedIn and YouTube. Below this is a **Navigation** section with links for **Product Areas**, **Markets**, and **Case Studies**. The **Company Overview** section on the right includes the Gallagher logo, a paragraph of text describing the company's global presence and services, and the website URL [security.gallagher.com](http://security.gallagher.com). At the bottom of the page, there is a **Product Areas** section.

**Feature Pages** allow you to highlight key information for consultants and specifiers including product areas, markets, featured products, white papers, articles, case studies, etc.

First, turn on the feature pages you wish to create by going to **Feature Pages**, selecting the **Feature Page Menu List** and clicking on the Edit icon for any Feature Page you want to turn on:

The screenshot shows a navigation bar with tabs: A & E Specs, Company Information, Personnel, Locations, Web Links, Support Resources, Feature Pages, and Data Associations. The Feature Pages tab is active. Below the navigation bar, there is a timestamp: 1/29/2026 7:20:26 PM. The main content area displays a table titled "Feature Page Menu Listing". The table has four columns: #, Web Menu Name, Web Menu Active, and Edit. The "Product Areas" row (row 12) has its "Edit" icon highlighted with a green box. To the right of the table is a sidebar menu with the following items: Add Feature Page Section, Feature Page Menu List (highlighted with a green box), Feature Page Search, Feature Page List, and Most Recent Feature Pages.

| #  | Web Menu Name       | Web Menu Active | Edit |
|----|---------------------|-----------------|------|
| 1  | Affiliations        | N               |      |
| 2  | Case Studies        | N               |      |
| 3  | Certifications      | N               |      |
| 4  | Design Capabilities | N               |      |
| 5  | Distributor Listing | N               |      |
| 6  | Events              | N               |      |
| 7  | Featured Products   | N               |      |
| 8  | Highlights          | N               |      |
| 9  | Manufacturers       | N               |      |
| 10 | Markets             | N               |      |
| 11 | Partners            | N               |      |
| 12 | Product Areas       | N               |      |
| 13 | Reference Projects  | N               |      |
| 14 | Resources           | N               |      |
| 15 | Services            | N               |      |
| 16 | Team                | N               |      |
| 17 | Testimonials        | N               |      |
| 18 | Videos              | N               |      |
| 19 | White Papers        | N               |      |

When you click the Edit icon for a Feature Page you will set **Web Menu Active** to Yes and add a **Page Title** and **Page Description** (note: this is a search engine description that will not appear to the public.):

The form is titled "Updating a Feature Page Web Menu". It contains the following fields and options:

- Web Menu ID:** 3091
- Web Menu Name:** Product Areas
- Web Menu Active:**  Yes  No
- List Order:** 13000
- Page Title:** Product Name
- Page Description:** Add a description that will serve as a search engine description. This description will not appear on the public page and should be geared toward optimizing search results.

At the bottom of the form is a blue button labeled "Update Web Menu".

You can verify pages have been activated by returning to the **Feature Page Menu List**:

| Feature Page Menu Listing |                     |                 |      |
|---------------------------|---------------------|-----------------|------|
| #                         | Web Menu Name       | Web Menu Active | Edit |
| 1                         | Affiliations        | N               |      |
| 2                         | Case Studies        | N               |      |
| 3                         | Certifications      | N               |      |
| 4                         | Design Capabilities | N               |      |
| 5                         | Distributor Listing | N               |      |
| 6                         | Events              | N               |      |
| 7                         | Featured Products   | N               |      |
| 8                         | Highlights          | N               |      |
| 9                         | Manufacturers       | N               |      |
| 10                        | Markets             | N               |      |
| 11                        | Partners            | N               |      |
| 12                        | Product Areas       | Y               |      |
| 13                        | Reference Projects  | N               |      |
| 14                        | Resources           | N               |      |
| 15                        | Services            | N               |      |
| 16                        | Team                | N               |      |
| 17                        | Testimonials        | N               |      |
| 18                        | Videos              | N               |      |
| 19                        | White Papers        | N               |      |

Once activated, you can add public facing Feature Page Section content. Go to **Featured Pages** and select **Add Feature Page Section** (note: It is possible to add a Feature Page Section to a page that has not yet been activated, but it will not show up until activated):

Add Feature Page Section

Feature Page Menu List

Feature Page Search

Feature Page List

Most Recent Feature Pages

Select the **Feature Page Section Type** from the drop-down menu:

The screenshot shows the 'Add Feature Page Section' form. The 'Feature Page Section Type' dropdown menu is open, displaying a list of options: Product Areas, Affiliations, Case Studies, Certifications, Design Capabilities, Distributor Listing, Events, Featured Products, Highlights, Manufacturers, Markets, Partners, Product Areas (highlighted), Reference Projects, Resources, Services, Team, Testimonials, Videos, and White Papers & Articles. The 'Feature Page Section Name' field is empty.

Now input the content for your Feature Page and click **Update Feature Page Section** to save (note: **Feature Page Section Type** and **Feature Page Section Name** are required):

The screenshot shows the 'Add Feature Page Section' form with the following fields filled out: 'Feature Page Section Type' is 'Product Areas'; 'Feature Page Section Name' is 'Product Name or Descriptive Name (e.g. Fence-Mounted Perimeter)'; 'Web Address' is 'http://'; 'List Order' is '1000'; 'Active?' is 'Yes'; and 'Section Description' is 'Enter product information here (will appear on site)'. The 'Add Feature Page Section' button is visible at the bottom.

Editing Tip: You can use **Active?** Yes/No to control when this page content is visible to the public. This allows you to work on editing, and then select “**Active?** Yes” once you are ready to make the page visible.

Once a **Feature Page** is created, it will appear on the **Recently Added Features Page Sections** with an edit icon, or the full list can be accessed by clicking **Feature Pages** and selecting **Feature Page List** from the drop-down menu.

The image shows two parts of a web interface. On the left is the 'Add Feature Page Section' form, which includes fields for:
 

- Feature Page Section Type (dropdown menu)
- Feature Page Section Name (text input)
- Web Address (text input with 'http://' prefix)
- Start Date (calendar icon)
- End Date (calendar icon)
- List Order (text input, value: 1000)
- Active? (radio buttons for Yes and No)
- Section Description (text area)

 At the bottom of the form is a blue button labeled 'Add Feature Page Section'. On the right is a table titled 'Recently Added Feature Page Sections' with a green border. The table has two columns: 'Feature Page Section Name' and 'Edit'. It contains one row with the name 'Test Product Area' and an edit icon.

Once you create the record, you can go back to edit by clicking on the edit icon to add additional content:

- List order sets the order of appearance by number. Lowest number appears first, then organized by alphanumeric order if list order number is duplicated. You may use any numerical increments.
- Add an image (jpeg or png file less than 100kB). We recommend an image for each feature page.
- Mark as active when content is ready to be displayed.

### Feature Page Section Support

The image shows the 'Update Feature Page Section' form and a separate placeholder. The form includes:
 

- Feature Page Section ID: 3242
- Feature Page Section Type: Product Areas (dropdown)
- Feature Page Section Name: Test Product Area
- Web Address: http://
- Start Date and End Date (calendar icons)
- List Order: 1000
- Active?: Yes (selected) / No
- Upload List Image: Choose File (No file chosen)
- Upload PDF: Choose File (No file chosen)
- Section Description: This is a test.

 A green box highlights the List Order, Active?, Upload List Image, and Upload PDF fields. At the bottom is a blue button labeled 'Update Feature Page Section'. To the right is a placeholder for a profile picture with a grey silhouette and the text 'Photo Needed'. Below the placeholder are four buttons: 'Last Feature Page List', 'Refresh Page', 'Change to HTML Description', and 'Download Edit Manual'.

(Note: You can also add a pdf file to a Feature page section. This is good for supplemental information where no URL exists for what is in the Feature Page section (e.g. a case study). Data sheets are discouraged, as they periodically change and easily become outdated.)

Once saved and active, you can go to the public site, refresh the page to see the content you've added.  
Example:

## Product Areas

### Fence-Mounted Perimeter Protection

There are several useful technologies for fence protection, or Sector 1, which can be fiber optic systems, magnetophonic cable, or MEMS (Micro Electro Mechanical System) accelerometer-based sensors. They are designed to detect different intrusion attempts such as climbing over, cutting or lifting the fence.

## A & E Specification

If your company's website has a landing page dedicated to A & E Specs, you can add a link to make it easier to navigate directly to that information by going to **A & E Specs, Add A & E Specification**, and selecting **A & E Specification – Portal** or **A & E Specification – Product**.

**A&E Specification - Portal** is a link that is public facing and is designed to take people to a landing page on a manufacturer's site. That page may or may not have its own login. Companies that use this link are shown on the Manufacturers tab on SecuritySpecifiers.com under Sponsor A&E Resources.

**A&E Specification - Product** (multiple are allowed) link designed to take people to a landing page on a manufacturer's site to specific products' or group of products' A&E documentation. Only a consultant who is logged in may get access to these links.

Option #1: Add using the **A & E Spec** tab, select the desired **Link Type** and enter the **A & E Spec Link Name** as your company name, and the **Link URI** will be the page on your company's website with relevant data.

The image shows a navigation menu with 'A & E Specs' and 'Company Information' tabs. Below the menu, a dropdown menu is open, showing 'Add A & E Specification' and 'List A & E Specification' options. The main form, titled 'Adding an A & E Specification Link', contains the following fields:

- Link Type:** Select Link Type (dropdown)
- A & E Spec Link Name:** Select Link Type (dropdown), A & E Specification - Portal (text input)
- Link URI:** A & E Specification - Product (text input)
- Link Active?:** Yes (selected) / No (radio buttons)
- List Order:** 1000 (text input)
- Description:** (text area)

An 'Add A & E Specification Link' button is located at the bottom of the form.

Option #2: Add **A&E Specifications** using the **Web Links** tab:

The image shows a navigation menu with several tabs: 'A & E Specs', 'Company Information', 'Personnel', 'Locations', 'Web Links', 'Support Resources', and 'Features'. The 'Web Links' tab is highlighted with a green box. Below the menu, a dropdown menu is open, showing 'Add Web Link' and 'List Web Links' options.

The image shows a form titled 'Adding a Link' with the following fields:

- Link Type:** Select Link Type (dropdown)
- Link Name:** Select Link Type (dropdown), A & E Specification - Portal (text input)
- Link URI:** A & E Specification - Product (text input)
- Link Active?:** Linked In - Company (radio button)
- List Order:** RSS - Company (text input), Vimeo - Company (text input), Webinar Calendars (text input)
- Description:** X (Twitter) - Company (text input), YouTube - Company (text input)

An 'Add Link' button is located at the bottom of the form.

Example of A & E Specs on SecuritySpecifiers.com:

The screenshot displays the SecuritySpecifiers.com website interface. At the top left is the logo for "security specifiers" with a stylized 'S' icon. To the right, there is a "Log In" link for existing users and social media icons for LinkedIn, X, and YouTube. Below the header is a navigation bar with four main categories: "Consultants", "Manufacturers", "Integrators", and "Resources". A secondary navigation bar includes links for "Homepage", "Search Consultants", "Search Integrators", "Cyber", "Events", "Partners", "About Us", and "Contact Us".

The main content area is divided into several sections:

- Manufacturer Directory:** A search section with a "Find security industry manufacturers by company or product area" instruction. It includes a "Company Name" dropdown menu (currently showing "Select Manufacturer"), a "Product Area" dropdown menu (currently showing "Select Category"), and a "Search Manufacturers" button.
- Featured Manufacturers:** A vertical list of manufacturer names, including CIAS, Dell Technologies, Essex Electronics, EyeOTmonitor, Farpointe Data, Inc., Gallagher Security, Hanwha Vision America, Honeywell Security & Access Solutions, i-PRO Americas Inc., LifeSafety Power, LLC (ASSA ABLOY), Magnasphere Corporation, and Milestone Systems.
- Sponsor A&E Resources:** A section highlighted with a green border, containing a list of sponsored resources: ACRE, Allegion, Altronix, Boon Edam Inc., Bosch Security and Safety Systems, CIAS, Farpointe Data, Inc., and i-PRO Americas Inc.
- Security Industry Association Endorses SecuritySpecifiers®:** A text block announcing a partnership with the SIA. It includes the SIA logo and a link to the "SIA Web Site".
- Featured Manufacturers (Sponsor Pages):** A section explaining that customized sponsor pages are available through the left menu, providing a "mini web-site" format for manufacturer content.
- Diamond Sponsors:** A section featuring logos for Altronix, Honeywell, Gallagher, and LifeSafety Power.
